

## THE MOST PREFERRED BRAND OF THE WORLD

**Dizayn Group, who is Turkish leader in heating and sanitary installation sectors , adds new ones to its valuable projects day by day.**

Dizayn Group, who operates in heating and sanitary installation areas, has currently exported the pipes which will be used for the installation of drinking water line in Santo Domingo, the capital city of Dominican Republic, where there are certain concerns about drinking water system. Dizayn Group, who has 85 patents, gives much more importance to its research and development projects. Thus, Dizayn Group is one of the most technology producing organizations in Turkey. As well as Dizayn Group has a reward in research and development field it is very successful with its international and business by exporting to more than 80 countries. Dizayn Group, who exports its products to numerous of countries mainly such as Italy, Holland, United Arab Emirates, Qatar, Albania, Romania, Uzbekistan, Sudan, Kuwait, Hong Kong, Russian Federation, Ukraine, Palestinian, Moldavia, Pakistan, India and to other countries so as to be used for major projects, is in the leader

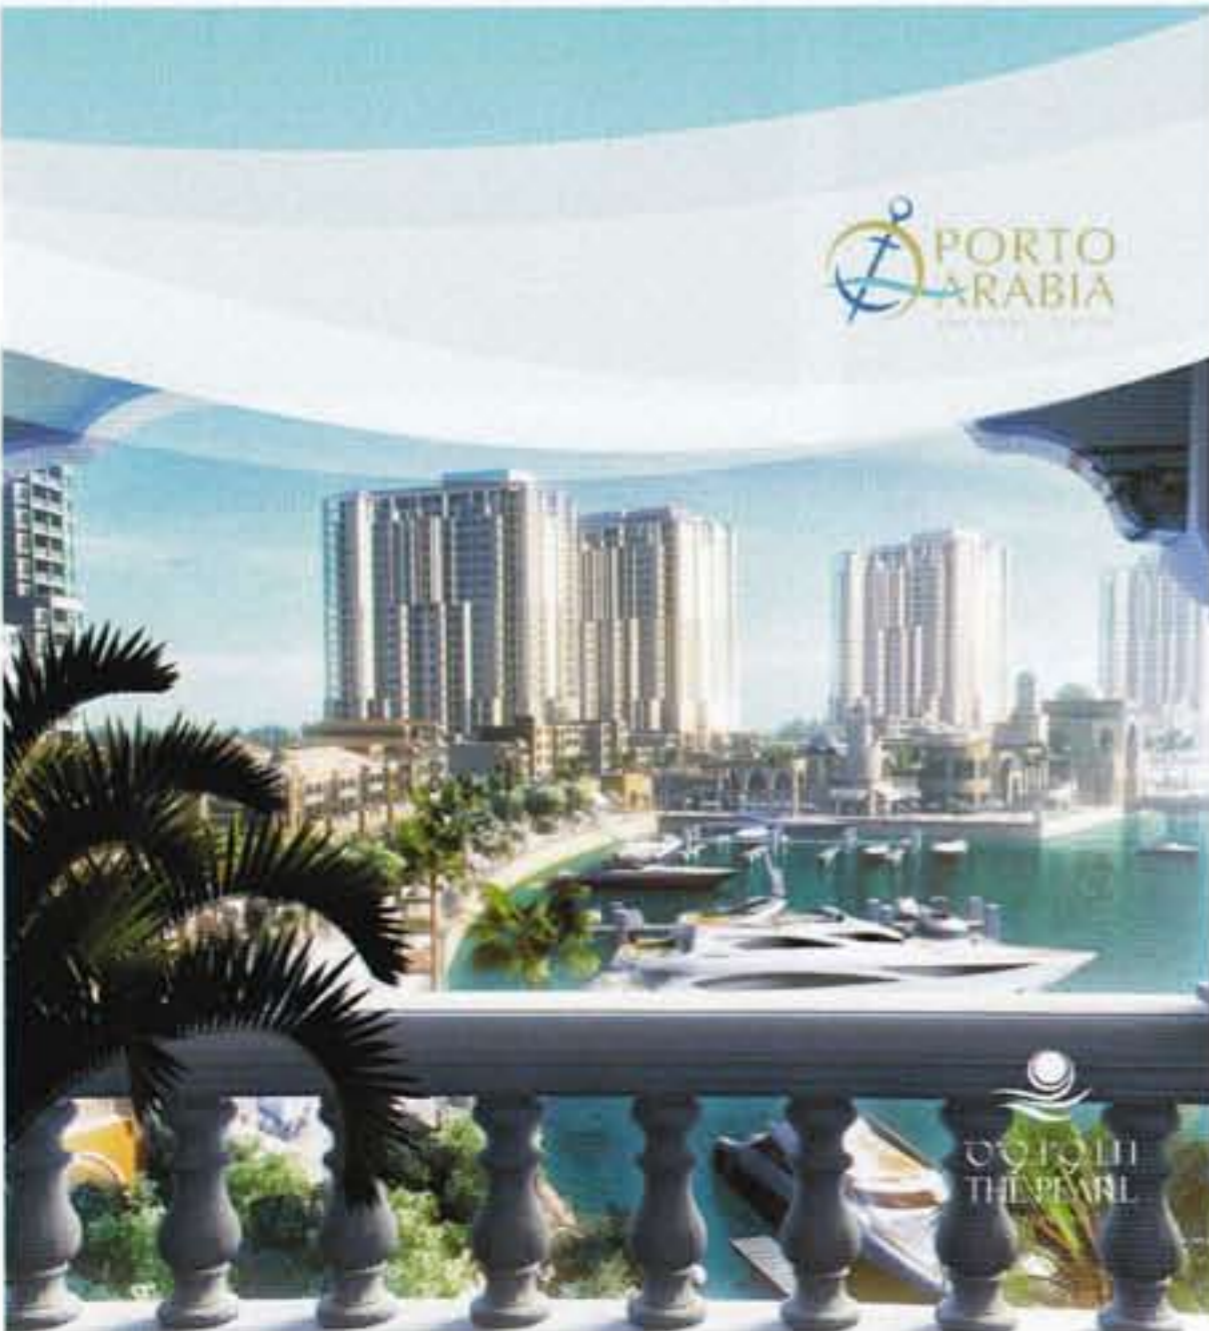

position of its field. Dizayn Group continues to bring each year innovation to the sector while having a big R & D department and by given importance to extensive research and development that results as development of new technologies and new products.

Dizayn Group products, whose quality has been proven by international quality certificates, is continuing to become a favorite brand out of lots of brands in the most prestigious projects. Dizayn Group, who is continuing to expand rapidly with its national and international investments, manufactures its products in the factories which are located in Sivas and Çorlu, Turkey and in Azerbaijan. Dizayn Group, who carries out major projects abroad, has contributed to international projects so far such as Palm island project in Dubai, Old Tower Burj Dubai; Nile River Submerged Transition in Sudan, Bukhara and Semerkand Water Project in Uzbekistan. Waste Water and Amendment Facilities in Kuwait, Hong Kong Interislands Connection Project and Pearl Island Project in Qatar.

There are different type of Dizayn products used for projects. For in-building projects Dizayn Oxy Plus Combi Pipe wich has Dizayn patent is the most preferred pipe. Oxy Plus Combi Pipe with Aluminum foil placed in the middle of this pipe, provides application convinience together with special face smoothing and welding tools.

**“We Find Solutions to Drinking Water Problem”**

Vice President of Dizayn Group, Mr. Hakan Ozdemir

emphasized that they found a solution to the drinking water transition problems of different countries. He also said that "By this time we have carried out the drinking water projects of several countries such as Moldavia, Uzbekistan, Albania. We also supplied the pipes which allow water transition to the power station in Gazze. Dizayn Group had exported the pipes that would be used to install drinking water line addressed to water demand of Santo Domingo, the capital city of Dominic Republic. Mr. Ozdemir also expressed " The pipes exported to this country is record holder in its own category". Mr Ozdemir pointed out Dizayn Group had contributed to economy of Turkey tremendously by international export activities, he also stated that Dizayn Group recently put into service its Germany Distributor in the scope of its international activities.

#### About Dizayn Group

Dizayn Group was founded in 1987 with the objective of developing and carrying out projects in heating and plumbing

sectors. In September 1992, Dizayn Group started producing under-floor heating pipes and indoor plumbing pipes called PP-R. Today Dizayn Group produces more than four thousand high and low pressure pipes and additional parts in 23 different complete systems.

As the result of giving importance to R&R works, Dizayn products which have quality certifications are exported to more than 80 countries are produced with high technologies they don't have alternatives in the world. Moreover, Dizayn Group with 85 patents is one of most productive technology company in Turkey and is rewarded by the Turkish Patent Institute.

İbrahim Mirmahmutoğulları, President of Dizayn Group, presented Turkey successfully and had the award of the year from World Young Businessman Achievers Competition hosted by Philippines in 2002. He is also founding member of International Technology Union (ITB). 

### Plant and Machinery

In order to produce a variety of high quality products, the integration of basic technology and state-of-the-art machinery is indispensable. At LVHE we heavily rely upon our production facilities since they are a sagacious combination of both indigenous as well as imported machinery as some of machines are listed below :

### LORD VISHVAKARMA HEAT EXCHANGERS (P) LTD.

Laksar Road, Kankhal, Haridwar - 249408,  
Phone : +91-1334-320883, 244132, 246764  
Fax : +91-1334-246260  
E-Mail : info@lvheatexchangers.com, lvhe@rediffmail.com

[www.lvheatexchangers.com](http://www.lvheatexchangers.com)

#### Machinery for fabrication and machining

- Vertical Boring Machine 3.2 Mtrs. & 1 Mtrs.
- Lathe machines for light machine jobs 8', 10', 12', 16'
- Radial Drill Machines 50mm capacity
- Plate Rolling/bending machine up-to 56mm thickness plate 1.5 Mtr. Width & 25mm thickness plate width 2.60 mtrs.
- Hydraulic press Machine 500 MT cap.
- Oil fired furnace for stress relieving

#### Machinery for Heat Exchangers

- Integral type finning machine upto 4 mtrs. Length cap.
- Dye Punch Type Fin Machine
- Automatic tube and wire tinning machine.
- Electronic control Torque unit machine
- Tube Bending machine for radius dia tube-all sizes
- All sizes of tube expanders

#### Factory Specifications

- Total Covered area approx. 30,000 Sq Ft.
- Total Area 45,000 Sq. Ft.
- Total Administrative Block covered area 12000 Sq. Feet.
